PROFESSIONAL SUMMARY

Junior Software Engineer with a BSc in Computer Science and hands-on experience building responsive React applications, integrating REST APIs, and working with relational databases. Currently expanding into fullstack development with Node.js, Express, and PostgreSQL. Strong foundation in JavaScript, React, and modern web development, supported by professional certifications from Meta (Backend) and IBM (Backend with Node.js & Express).

TECHNICAL SKILLS

Front End React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design

Tools & Libraries Redux, Chakra UI, Git, GitHub, Docker, REST APIs, React Router, Vue.js

Back End / Data Node.js, Express.js, MySQL, Django

Programming Java, Python, C, C++, R, Object-Oriented Programming

EXPERIENCE

Conveos | Front-End Developer Intern (React.js) | June 2024 - September 2024

Designed and implemented a React.js chatbot widget powered by Cheshire Cat AI, helping improve user interaction through an embedded conversational interface. Built responsive web pages for existing company platforms, focusing on front-end development quality, usability, and seamless API integration.

Worked with Redux and Chakra UI to manage application state and support dynamic, component-based user experiences.

SELECTED PROJECTS

Todo App — Fullstack Web Application | React.js, PostgreSQL, Node.js, Express, Vite | June 2026

Built a fullstack task management application from a Frontend Mentor UI challenge, implementing a React frontend with dark/light theme toggle, drag-and-drop reordering, and responsive design. Developed a Node.js/Express REST API with full CRUD operations connected to a PostgreSQL database hosted on Neon. Deployed frontend on Vercel and backend on Render with environment-based configuration for local and production environments.

Thesis - Online Presentation of Cultural Tourism Activities | React.js, Tailwind CSS, React Router | December 2024

Developed a React-based web application showcasing cultural tourism activities in Crete with a modern, responsive interface. Integrated interactive maps, multimedia content, and a dynamic slideshow to improve navigation and user engagement.

Workwiz | Academic UI/UX Project | *Figma, User Testing, Evaluation Report* | May 2025

Designed a low, mid and high-fidelity (3 parts from low to high) internship application platform for university students, facilitating end-to-end flows for job searching, networking, and interview preparation.

Conducted moderated usability testing with 5 participants using "think-aloud" protocols to identify friction points in navigation and icon recognition.

Analyzed UX metrics including Task Success Rate, Error Rate, and Execution Time, achieving a high System Usability Scale (SUS) score of 82.5/100.

EDUCATION & CERTIFICATIONS

University of Crete | BSc in Computer Science | Graduated 2026

Relevant coursework: Web Development, Human-Computer Interaction (UI/UX, Figma), Databases (SQL), Object-Oriented Programming (Java)

Certifications:

Meta Front-End Professional Certificate, which includes a total of 8 courses

- Introduction to Back-End Development
- Programming in Python
- Version Control (Git)
- Introduction to Databases for Back-End Development (mySQL)
- Django Web Framework
- APIs
- The Full Stack
- Back-End Developer Capstone

IBM Back-End Application Development with Node.js and Express
